PROFILE

web developer with a passion for building dynamic, user-friendly websites and applications. Skilled in both front-end and back-end development, with a focus on utilizing cutting-edge technologies to create good user experiences. Strong problem-solving abilities and a willingness to continuously learn and adapt to new technologies

PROJECTS

School Management

- I have recently completed a school management website project for my own school utilizing my skills in both front-end and back-end web development. The website featured a user-friendly interface and was built using HTML, CSS, JavaScript, and node js .
- It included functionalities such as student and teacher Login account and data management of both, class schedules, and grade tracking,fees management.
- The project was a great opportunity to showcase my ability to develop a complete web application and help in some real life problems.

Sangeet

- I like to produce music too , So i Designed and developed a fully-featured music app for producers, similar to Soundcloud. Utilized both front-end and back-end technologies to create an intuitive user interface and seamless functionality for uploading and sharing original music productions with friends and the community. Implemented features such as user profiles, music uploads, and commenting system to enhance user engagement and collaboration.

PORTFOLIO

For more projects you can checkout my portfolio website , I also uploaded E-commerce and Games there

HOBBIES AND EDUCATION

I am a versatile individual who enjoys a wide range of activities, including playing Sports ,music production, gaming, singing, dancing,sketching and combact sports. I am always looking for new ways to express my creativity and challenge myself
